Arbor Village, Sapulpa's finest inpatient physical rehabilitation and senior living community, recently achieved the coveted five-star rating for nursing care from the federal Centers for Medicare and Medicaid Services (CMS); a distinction that few nursing homes in the State of Oklahoma have achieved.

The CMS five-star rating is an evaluation system that helps seniors, families, and caregivers compare nursing facilities more effectively. It covers standard and complaint surveys that are conducted over three years, with on-site inspections. The rating of quality measures includes an evaluation of 16 different physical and clinical measures for nursing home residents. Each facility is provided a rating between one and five stars based off its combined performance.

Ernie Johnson, the Executive Director for Arbor Village since June 2015, commented, "It has been such a pleasure watching this community go from a three-star to a four-star and now a five-star. When we recently lost a long-term care resident, who had been a part of this community since 1979, all of our staff remained at her side because that is what we do. We treat our residents like family and that is why we continue to treat generation after generation of family. We have grandmas and grandpas, retired physicians, and local politicians that choose to come here for skilled rehab or who simply just want to make this place their home. We are embedded in this community and we love what we do here."

Jami McCleery, staff Advanced Certified Medication Aide, stated, "We are family oriented and work together as a team to provide the upmost care possible." Jami recently was awarded the *Key to Quality Award*, while attending the National Association of Healthcare Assistants Convention (NAHCA) in Washington, DC.

Since being purchased as a distressed one star facility in 2011 Arbor Village has been extensively remodeled and has been awarded, *The National Center of the Year* by NAHCA as well as *Director of Nursing and Administrator of the Year* awards at the state level and the national bronze quality award from the American Health Care Association.

Arbor Village continues to earn the business of the community and even surrounding communities, due to their remarkable people and exceptional care. Their ultimate goal is to provide the best possible experience for you or your loved one based on each individual circumstance. Whether you need a long term care option or a short rehabilitation stay in our Rapid Recovery Suites, Arbor Village is there to provide world class care and rehabilitation.
